

August 2026

PILING WORKS

Commencement of foundation works and piling at the New Mandurah Hospital project site.

What we are doing

- Piling works are commencing to establish the hospital's foundation. Piling works involve the construction and embedding of piles, which are the deep, vertical steel-reinforced concrete columns and sheets that form the building's substructure.
- Two piling rigs will be delivered to site, each transported by three low-loader trucks, with a mobile crane used to unload and assemble the rig.

When

Piling mobilisation and works will commence on Friday, 14 August and continue to late October with the following night works:

- Friday, 14 August, 9 pm – 1 am First piling rig mobilised.
- Monday, 17 August, 7 am – 6 pm Pile cage deliveries.
- Tuesday, 18 August, 7 am – 6 pm Piling commences.
- Tuesday, 18 August, 9 pm – 1 am Second piling rig mobilised.

Where

- Peel Heath Campus, 110 Lakes Rd, Mandurah WA 6210 (refer to map overleaf)

What to expect

- Night works will be undertaken on two separate dates to mobilise the rigs.
- An increase in heavy vehicles entering and exiting the site.
- A traffic management plan will be in operation to manage the entry and exit of oversized vehicles.
- Nearby residents and hospital staff may experience intermittent noise during the works.
- We are working closely with the Peel Health Campus to ensure construction impacts are minimal.
