WORKS NOTIFICATION

October 2026

OUT-OF-HOURS WORKS

Sunday works starting on 11 October 2026 for approximately eight weeks

What we are doing

Piling Works

- Piling works to establish the hospital's foundation are continuing and a third piling rig is in operation. Piling activities will continue seven days a week for approximately eight weeks.

Tower Cranes Installation

- Four tower cranes will be mobilised and installed on site, the first two in October followed by two in November.
- Each tower crane will be delivered and transported by low-loader trucks with a mobile crane used to unload and assemble the crane. The tower cranes will be used to lift and position materials and structural components as construction progresses.

When

- Commencing 11 October 2026 for approximately eight weeks.
- During this period the site will be operating Monday to Saturday 7 am to 7 pm and on Sundays from 7 am to 5 pm.
- The first two tower cranes will be mobilised and installed on Friday, 16 October through to Monday, 19 October 2026. The cranes will remain onsite until February 2027.

Where

- Peel Health Campus, 110 Lakes Road, Mandurah WA 6210

What to expect

- An increase in heavy vehicles entering and exiting the site to install the cranes. A traffic management plan will be in operation to manage the entry and exit of oversized vehicles.
- Directional lighting will be in place and will be operated to minimise light impacts to surrounding residents.
- Nearby residents and hospital staff may experience intermittent noise during this period.

Occasional out-of-hours noise

- Occasional noise outside of standard construction hours may be caused by deliveries, rubbish removal, security activities and the refuelling of plant and equipment.
